

MEETING REPORT

Team Name: Group IIIB

Date of Meeting: 20/05/2021

Start Time: 15:00 **End Time:** 16:30

Meeting Location: Online

Moderator: Martina Kajana

Recorder: -

Other Members Present: Kleit Daja

Members Absent:
Raziena Uruci
Redis Kondakciu
Imran Sulo
Joana Allushi

Topics Discussed:

We discussed implementing other important sections of the documentation of the project. The more detailed the documentation is, the easier it is for us to implement the code. After studying these sections, we worked on them together. We also decided to divide our work for the activity diagram, some regulations on the use cases, entity relationship diagram, relational schema and Data Flow Diagram. We brainstormed about the other functional requirements we should add and about what diagrams we should work on for the next week.

Decisions Made:

- We divided our work for the week.
- We decided what diagrams should be done until next week.
- We discussed other functional requirements.
- We did some calculations of what should be done in the project and what not.

Tasks Assigned:

- To fulfill the wiki page.
- To do the diagrams, we decided on the meeting.
- To modify and add in the documentation what we decided to do on the meeting.

Time, Place, and Agenda for Next Meeting: Next week on 26th May, 17:00 (but we will discuss again).
