

MEETING REPORT

Team Name: Group IIIB

Date of Meeting: 06/05/2021

Start Time: 16:30 **End Time:** 17:30 **Meeting Location:** Google Meet

Moderator: Martina Kajana

Recorder: -

Other Members Present:

Kleit Daja
Raziena Uruci
Redis Kondakciu
Imran Sulo
Joana Allushi

Members Absent: None

Topics Discussed:

This meeting we had a lot to discuss, because of two weeks of absence due to Midterm exams. Even though we didn't have a lot of time to work on the project, we still managed to fill some parts of the requirement document posted in github.

We discussed about the use case diagrams that needed to be completed. We have done some use case diagrams, but we should still work on that. Since we have prepared some sketches for the web parts and uml diagram for the java part, we are almost ready to start coding. The holidays were spent watching some php, html, css, js tutorials by the web group and java and javafx tutorials by the java group.

Decisions Made:

- We assigned tasks to each group member to finish the next draft of requirements specification.
- We will start working on the proper codes (web and program).

Tasks Assigned:

- Each group member should complete their wiki pages.
- Each subgroup should have a meeting to discuss and start implementing the code.
- Each member should contribute and complete the use case diagram.

Time, Place, and Agenda for Next Meeting: 12th May 2021, time may vary depending on each member.
