

MEETING REPORT

Team Name: Group IIIB

Date of Meeting: 12/04/2021

Start Time: 12:00 **End Time:** 14:00

Meeting Location: Durres

Moderator: Martina Kajana

Recorder: -

Other Members Present: Kleit Daja
Raziena Uruci
Redis Kondakciu
Imran Sulo
Joana Allushi

Members Absent: None

Topics Discussed:

We went to a course center and we discussed with them about what problems they encounter more frequently. We told them about our idea of a certificate. Our main aim is to encourage students and people to study harder and to have something to look forward for. These will be simple certificates which will reward the people taking the quiz if they answer the majority of the questions correctly. We did a lot of research on the internet and we found out that these certificates can be a great boost for students. Furthermore, we discussed with them about some features about our project as the log in part (you can log in as a student, as a teacher, as an admin) etc.

We did some sketches of the program we will make and we did some brainstorming about it too. In addition, we decided to create a webpage to present this program, so it can be an introduction for everybody who is curious to know about our program.

We exchanged a lot of ideas about the webpage and how we are going to implement it. Also, we discussed how we are going to divide our work. Initially, half of us are going to work on the webpage using php, html, css and the other half will work on the program using java.

Decisions Made:

- We decided to divide our work in two parts: the webpage and the program.
- We should have finished by our next meeting the sketches of the webpages and the programs.
- We decided the programming languages we will use.

Tasks Assigned:

- Each one of us should write our own personal log in the wiki section (GitHub).
- We should start studying the languages we will use (with tutorials, books).
- Do researches regarding the implementation of the project.

Time, Place, and Agenda for Next Meeting:

19/04/2021, time may vary depending of our classes, on Google Meet.
